

1. We Help Teachers

- We are focused on providing equity of access to the highest quality resources and professional development experiences.
- We believe in the talent and power of the physical education community and work to empower all teachers with resources that address the diverse nature of all school communities.

2. We Inspire and Defend Loyalty and Trust

- We understand that trust is fragile; therefore, we plan our work to purposefully inspire and defend the trust of our community.
- We engage with teachers on a cognitive & emotional level for the benefit of all students and communities.

3. We Question the Status-quo

- We are not satisfied with the current state of physical education; therefore, we work purposefully and collaboratively to identify and remove barriers to progress.
- We continually reflect on our past experiences, current practices, and future-forward plans to ensure that we are contributing to the growth-potential of teachers and the students they serve.
