I will focus on proper technique while performing Darebee and Invisible Dumbbell activities.	I will demonstrate proper exercise form as an essential part of my injury prevention practice.

# INVISIBLE DUMBBELL FITNESS STATIONS

## Notes to instructors:

Help students work on muscular fitness without the heavy lifting! These cards are designed to be set up in station format with small groups of students working at each station. Time each station interval for 30 seconds to 2 minutes. Students perform the exercise on the card and then rotate to the next station.

As with any game or activity resource, it's up to you to assess the needs and abilities of the students under your supervision. Modify these activities as needed to meet the requirements of your space, group size, and age ranges.

The pages of this packet are designed to be used as station cards. The instructions can be read and explained by older and more mature students. However, we strongly recommend teaching each exercise to the group before allowing students to work independently.

Every page includes a reminder to practice safe social distancing. All of the exercises in this packet were designed to allow students to remain a minimum of 6 feet apart and *DO NOT* require them to use or share equipment.
