UNIVERSAL DESIGN FOR LEARNING

Universal Design for Learning (UDL) is a strategy for eliminating instructional and environmental barriers for every member of a learning community in order to meet the needs of all students across the continuum of physical, intellectual, and emotional abilities.

The table below offers UDL adaptations and suggestions.

Equipment	Rules	Environment	Instruction
<ul style="list-style-type: none"> Encourage students to try new activities that they enjoy and match their challenge/skill level. Use large, brightly colored and easy-to-read instructional materials. Use different colored cones or spots to identify a home base for each student. Use spot markers to create movement or travel routes. 	<ul style="list-style-type: none"> Change rules to reflect equity of skill acquisition, mobility, and fitness level. Vary movement expectations to increase equity. For example, allow different modifications of fitness exercises or the use of assistive equipment. Adapt body positioning to student needs. For example, modify the game to play sitting, lying, or prone. 	<ul style="list-style-type: none"> Visually mark/define space in activity area with visual markers like cones, spot markers, visual signs/cues. Adjust lighting (e.g., brighter or lighter). Visual pathways for travel using spot markers, floor markings, wall markings, and other visual cues. 	<ul style="list-style-type: none"> Be flexible. Adjust as needed. One size doesn't fit all. Establish consistent, predictable routines. Be concise. Speak slowly & clearly with a well-defined beginning & end. Give 1-step vs multiple-step directions. Provide time for students to process instruction. Give choice to motivate students. Provide multiple forms of prompts and cues — kinesthetic, visual, and auditory.

When UDL adaptations are not enough for accessing and developing equitable learning activities and assessments, and you feel that you need to do more for individual students, reach out to providers on the students' IEP Teams. You can also reach out to your school's curriculum resource department in order to see how else you can modify instructional delivery to meet students' needs. Students who have an IEP or a 504 will oftentimes have specific modifications and accommodations in their IEP based on individual needs.
