Universal Design for Learning

Universal Design for Learning (UDL) is a strategy for eliminating instructional and environmental barriers for every member of a learning community to meet the needs of all students across the continuum of physical, intellectual, and emotional abilities.

The table below offers UDL adaptations and suggestions.

Equipment	Rules	Environment	Instruction
<ul style="list-style-type: none"> • Use a variety of different tossable markers (size, material, weight, colors, etc.). Allow students to explore and choose from the options. • Use large, brightly colored organizational markers and court lines. • Use different colored cones or spots to identify activity areas.. 	<ul style="list-style-type: none"> • Change directions and expectations to reflect equity of skill acquisition, mobility, and fitness level. • Vary movement expectations to increase equity. For example, allow different ways to move from square to square. • Adapt body positioning to student needs. For example, modify the activity to move while sitting on in a chair. 	<ul style="list-style-type: none"> • Visually mark/define space in the activity area with visual markers like cones, spot markers, visual signs/cues. • Adjust lighting (e.g., brighter or lighter). • Visual pathways for travel using spot markers, floor markings, wall markings, and other visual cues. 	<ul style="list-style-type: none"> • Be flexible. Adjust as needed. One size doesn't fit all. • Establish consistent, predictable routines. • Be concise. Speak slowly & clearly with a well-defined beginning & end. • Give 1-step vs multiple-step directions. • Provide time for students to process instruction. • Give choice to motivate students. • Provide multiple forms of prompts and cues — kinesthetic, visual, and auditory.

When UDL adaptations are not enough for accessing and developing equitable learning activities and assessments, and you feel that you need to do more for individual students, reach out to providers on the students' IEP Teams. You can also reach out to your school's curriculum resource department in order to see how else you can modify instructional delivery to meet students' needs. Students who have an IEP or a 504 will oftentimes have specific modifications and accommodations in their IEP based on individual needs.
